The details

Apartments at Honeybourne Gate will be sold leasehold with 125yr leases. A separate price list showing the purchase price, service charge and ground rent for every apartment is available

In addition to the cost of purchase there will be some recurring charges such as ground rent and a service charge. The service charge will cover the cost of staff, repairs to communal areas, etc. In addition, when you sell the property a charge of 4.5% of the price you sell for will be made to cover the cost of renovating the apartment for a new owner and future building maintenance necessary to maintain the value of the apartments and selling your property.

A small number of apartments maybe sublet and made available for renting. In these cases, tenants will be responsible for both the rent and service charge.

If you are downsizing, the cost of services provided through the service charge and by purchasing services from our on-site team will usually be significantly lower than you are paying currently. Nevertheless it is important that you assess these charges yourself and understand them. To help with this, all of these charges will be set out clearly, along with details of what services you can expect for these payments, before you decide to buy. Nevertheless we strongly advise that you discuss these charges with your solicitor during the purchase process and ensure you fully understand both your commitments and our responsibilities to you.

We will also set out the cost of those additional services, such as help in your apartment, you might choose to purchase from the on-site team. It is our intention that these services will be offered at a discount to the cost of similar services available from local agencies.
